This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new,

positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

# Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create wealth.

Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

## *Sun in Capricorn:*

Your best route to gaining financial prosperity is to become an expert in something and work your way to the top. You are practical enough to know that it will not pay to take risks, and that it is better to move ahead gradually but surely. It pays to be honest and to build a good reputation.

You benefit from the fact that there are others who have gone before you who can show you the way. They have established rules and procedures which you can follow. In turn, once you have risen to a position of authority, you will receive financial benefits by being in charge of others.

Your steady work in your younger years will pay off in your retirement. You will have earned financial security, and you will be able to live in comfort.

## *Sun in 4th house:*

You are most likely to acquire prosperity in a position where you are in charge of nurturing others. This may be your own home, where you care for children or older people. It may involve the land and growing food for others. It may be environmental work, such as preserving wildlife habitat.

Because you give so much to others, you are cared for in return. Others are inspired by your example to be kind too.

*Sun Sextile Moon:*

The key to using a sextile aspect to acquire prosperity is to take advantage of the many opportunities which come to you. This requires conscious willpower to be decisive, rather than just feel comfortable. As long as you are conscious of working at it, the energy you put out will result in a return of wealth.

You have more energy potential than you may realize. You have plenty to give. Discover what you are really here to do and you will increase your happiness and prosperity. The more you give, the more you receive.

Accept what others have to offer to you in terms of helping you be your real self. Do not ignore opportunities for self-knowledge and self-development; be receptive to them.

*Sun Sextile Mars:*

Asserting yourself and attracting prosperity come easily to you. You have enough kindness and consideration that you can promote your products or services assertively without turning people off. The very pleasing result is that you can be of great inspiration to others. Because you make them feel that it is safe to assert themselves and take action, they will respond by willingly giving to you in return. Your relationship will be dynamic and your financial endeavors very pleasant and profitable.

*Sun Square Saturn:*

On one hand, you value your self-expression. On the other hand, you are faced with what you may perceive as drudgery to make ends meet. The two goals of being yourself and making ends meet seem to be competing with each other, and you may become pessimistic. However, you need to resolve this dilemma in order to get over it and enjoy prosperity. Deal with any past emotional blocks, rather than avoid them. Consciously cultivate a positive outlook. Find ways to combine what you like to do with making money; it is just an illusion of negativity which is holding you back.

*Sun Trine Asc.:*

You are blessed with tremendous vitality and optimism, which you readily project to others. Your generosity and goodwill attract much prosperity in return. Your enthusiasm creates harmony and a love of life with your partner, and you can happily increase your wealth together. In investments, you are likely to have

good luck with gold. You would be talented at working with children, as you would teach them higher values and make it fun.

*Sun Opposition Part of Fortune:*

You have achieved a wonderful balance between two very prosperous influences; when one is not working the other one is. On one side of the balance, you radiate light, life and happiness. On the other side, you are inspired by positive faith and optimism. So, you are either happily enjoying life or else looking to the higher power for inspiration and finding it. You contribute much to the joy of others by teaching them that prosperity is always there if they just look for it, and that they are always meant to be happy.

## **Chapter 2: The Moon**

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

*Moon in Scorpio:*

You are very secretive in your financial strategies, and this keeps others from trying to get your money away from you. You may be saving your money for your children to inherit. You make sure that you have insurance, especially life

insurance. You are courageous in dealing with these ultimate family financial matters. You may be interested in owning mining shares. You are capable of living on very little while you achieve your ultimate prosperity goals.

*Moon in 2nd house:*

Money and security are important to your happiness, so you set the goal of having comfortable home furnishings. You choose good-quality possessions which will last a long time and which have a heritage value such as silver and antiques. Your mother likely encouraged you with music or art, and you may go into a business related to musical instruments or art and picture framing. You will invest your money carefully for the long term.

*Moon Trine Mars:*

This is a very favorable aspect for a happy home life and successful business. Your positive attitude about prosperity inspires you to create harmony with your family and to work actively on their behalf. You are enterprising in business and your caring, generous attitude towards your customers ensures that they will come back. Part of your success comes from your good health and abundance of energy.

*Moon Conjunct Jupiter:*

You are very generous, protective, and caring with your money and your good karma will result in financial prosperity for you in return. You are likely to end up with a very large home, where you will continue to help and enlighten others. You may become involved in providing food for those in need, and you would find this work very fulfilling. You can succeed very well in business because you are honest, nurturing, and aware of the bigger picture, of prosperity being the natural state. You are very receptive to prosperity and goodness.

*Moon Square Neptune:*

Your receptivity and self-assertion allow you to find people who will help you out financially, but you need to make sure that you give others as much as you receive, even if it is in non-monetary ways, so that you will not accumulate a karmic debt. If you are spiritually motivated, you will do a great deal for those in need and receive good karma in return.

*Moon Sextile Asc.:*

This aspect indicates a harmonious relationship between your inner emotions and outward self-expression. So, the happier your feelings are, the more pleasant you will seem to other people and the more favorably they will respond

to you. If you want to become prosperous, consciously introduce positive, optimistic prosperity affirmations into your subconscious mind so that you will project happiness to others. Then they will respond by helping you become prosperous.

*Moon Trine Part of Fortune:*

You know much ongoing happiness and good fortune. You came from a happy home and were given good religious guidance. You feel secure and loved by God. You are spiritually guided in the ways that you attract money and in the ways you spend it. You are very joyful about being able to carry out your life's mission of caring for the less fortunate. You provide for their needs and rejoice in their awakening to their own, inner faith.

## **Chapter 3: Mercury**

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

*Mercury in Aquarius:*

You are a brilliant, innovative thinker and you could find financial prosperity in one of your unique inventions. You have a natural understanding of how wealth is first created in the mind and then carried out in everyday affairs. One good idea can be worth a million dollars! You could be a computer genius, and this may be your source of prosperity.

*Mercury in 5th house:*

You could make your living working with children, perhaps as a teacher. Because of your understanding of the need for fun, recreation and entertainment, you might also write children's books, plays or dramas. You have a good mind for understanding the stock market and the bigger patterns as to how wealth is created.

*Mercury Sextile Venus:*

You are likely talented at music, song-writing and singing, and could make money in this way. You are very practical with your money, in both being frugal and preparing for your future. You could study and teach art, especially art in three-dimensional form such as sculpture or pottery. You also have good communication skills and could achieve harmony for others as a mediator or counselor.

## Chapter 4: Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

*Venus in Sagittarius:*

This is one of the most fortunate placements for large financial gains. You

take the best advantage of positive thinking and faith in your financial affairs. In addition, you look for investments of solid, long-term value. You may live in a very large house, worth a great deal of money. You are likely to associate with honest, generous people who can guide you in your financial dealings. You would be lucky at the horse races, but do not get carried away with gambling.

*Venus in 3rd house:*

You can make good money in the communications world, either as a career or as a place to invest money. You are an excellent communicator yourself, and could profit from writing or poetry. You are best off investing in several different sources of income simultaneously, for both security and variety. You can work well with your relatives, in order to get ahead. Your work may involve the delivery of food or other items.

*Venus Square Uranus:*

You may come upon sudden financial gains, but the challenge for you is to integrate these experiences into your higher spiritual purpose. It is important that you not become ego-attached to your ability to attract this money, or it will bring unhappiness rather than fulfillment. Plan ahead of time what you would do with the prize, if you win a contest or lottery you are entering, and then stick to your plan so that you will not be put off balance if you win.

## Chapter 5: Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

*Mars in Pisces:*

You have many options to make money: from fisherman/woman to musician to psychologist. Your excellent attunement with your subconscious mind is the source of your success. You would not be happy working in a structured environment, and are advised against this, as it would just make you unhappy, not richer. You may be a talented artist or photographer. To be financially successful, associate with sensitive, creative people; avoid addictions; and stick to your positive goals. You could invest successfully in art, a retreat center, or anything to do with the sea.

*Mars in 7th house:*

You are assertive with others in a diplomatic way, and you would be able to make money in sales or public relations. You may run a business with your spouse. You work better with someone else than on your own because of your sociable, cooperative nature. Other fields where you could make a living would be law, mediation, diplomacy or peace-keeping. Your investments are likely to center around joint finances; make sure that your money is protected should there ever be an end to the marriage.

*Mars Opposition Asc.:*

Because of your assertiveness, your relationships with others are likely to be competitive rather than harmonious. Therefore, you do better to recognize this and choose a field where adversarial relationships are required. This may be law, sports, or business. You are an advocate of "good sportsmanship" and fairness within the context of being competitive. In a marriage, you would be advised to choose as a partner someone who enjoys being competitive too.

*Mars Trine Part of Fortune:*

You find great joy in working to put your religious beliefs into practice. You are inspired by your faith to do great good. You may even travel to other countries to show the people how to set up their own business enterprises, so that they can be more prosperous. You have worked hard and achieved your own financial success, and you are very generous in helping others. You find great fulfillment in seeing concrete gains which are the results of your efforts.

## **Chapter 6: Jupiter**

Jupiter is a very large planet, and it rules growth and expansion. You can grow

in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

#### *Jupiter in Scorpio:*

You could become prosperous by advising other people about their money. You would understand the best profit strategies for them depending on their situation. You could help them with their taxes, will, insurance, or joint finances. You will earn good karma by showing them how to save money and how to avoid pitfalls. You could alternatively make a good living in the salvaging or recycling business.

#### *Jupiter in 2nd house:*

This is a very favorable position for business expansion and profits. You have a wonderful combination of a far-reaching vision of prosperity with the ability to put into place the practical steps to carry it out. Because you have hope and faith for the future, you are willing to invest and to be patient while your investments grow. Your business could relate to building, real estate, travel, publishing, or home products. Make sure that you do not over-spend or over-indulge and you will be a great success.

#### *Jupiter Trine Uranus:*

This is a very fortunate aspect for being able to find great prosperity while carrying out your higher life mission. You have great faith and a genius mind. You are here to find new ways of getting a positive message of inspiration out to others and uplifting the world. You are above being attached to money and yet you easily attract it as a means of carrying out your life's work. You could prosper as an astrologer. You could come up with ingenious ways to use a computer to spread goodwill, progress, and spiritual upliftment.

### *Jupiter Square Neptune:*

You need to guard against financial over-indulgence. Avoid speculation or gambling, because your dreams of financial abundance are not grounded in reality. Have a practical Virgo do your bookkeeping for you so that you will not waste your money and end up poor. If you are able to raise your level of consciousness above ego-attachment concerning money, you could theoretically become prosperous, but it would take much conscious willpower and consistent practice of meditation or prayer.

### *Jupiter Trine Pluto:*

This is a very powerful and favorable aspect for acquiring a huge amount of money and finding happiness with it. That is because you are above the plane of being attached to money and you are instead very much in tune with your higher life mission of making the world a better place. You will transform the lives of many by teaching them how positive, spiritual beliefs can uplift them from poverty and make them prosperous. You could invest in economic programs abroad, charitable foundations, publishing, or exporting.

### *Jupiter Trine Part of Fortune:*

You are blessed with a very joyful, optimistic outlook and the good fortune of being able to get ahead very easily in life. You are being rewarded for your past, good karma and your ongoing faith and spiritual enlightenment. You are even above thinking that you will be rewarded if you do good because you do good anyway and you are rewarded anyway. You are truly living in the Light and elevating the consciousness of others as well.

## **Chapter 7: Saturn**

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly,

your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

*Saturn in Libra:*

Once you have worked out what your own goals are, you will accomplish them best with a partner. At this stage, a partner will be an asset, rather than someone to hold you back from discovering your own goals. You are now capable of a very mature, responsible, lasting relationship that can bring you happiness and prosperity. Choose your partner carefully and make sure that goals inter-mesh.

*Saturn in 2nd house:*

Your goals are likely to have lifelong financial security and to acquire possessions of good, lasting value. You would likely achieve your goals because you have such perseverance and willingness to work. You are cautious in your investments, and you choose to invest in things which will gradually increase in value. You are not a risk-taker. You watch how your money is being spent as you go along, because you have worked hard for it, and then you have more to save for future security.

*Saturn Sextile Neptune:*

You have many talents and many opportunities for prosperity. You could pursue your art, music or photography skills and have a creative career. You could work behind the scenes to help those in need, as you are both practical and compassionate. You could be a successful fisherman/woman or work in any industry having to do with water. You could work at saving the marine environment. Your own prosperity would be karmically taken care of, as others or fate itself would come to your aid in return.

*Saturn Square Part of Fortune:*

You have great determination to work hard and overcome hardship so that you can become prosperous. Because of your positive attitude, you will most certainly succeed. You realize that fulfillment comes not just from a high-sounding philosophy but from setting practical goals and achieving them. You enjoy your work, even if it is hard, and you responsibly manage the profits that you make.

## Chapter 8: Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

*Uranus in Pisces:*

You were born into a generation of people who needed to get away for a quiet retreat after the previous, very busy computer age. They needed to rediscover their emotional depth and compassion. It was not a time of significant, economic achievement but, rather, a time of widespread financial lack and re-discovery of non-monetary values. Concerns about the environment emerged, particularly the supply of clean drinking water, the effects of the temperature rising in the oceans on fish and other marine life, and the lack of oil. Group meditations for the planet were held and habitat re-creation projects were undertaken.

*Uranus in 6th house:*

You have a brain which is both unusually inventive and greatly practical. You could use your genius to cure diseases or, better still, prevent them from manifesting in the first place. You could be a very successful alternative health care practitioner, such as a naturopath, chiropractor, energy healer, or nutritionist. You work best independently, rather than having to obey a boss. You would also

work well in a group where everyone is equal.

*Uranus Trine Pluto:*

You were born during a rare, few years of great worldwide advancement in spiritual insights and scientific progress. The changes were very great, but they were for the good. People were happy and the economy prospered. Those who prospered most were the great geniuses who were able to come up with new inventions which would benefit the masses. They drew their inspiration from the higher power.

## Chapter 9: Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

*Neptune in Leo:*

You were born at a time when there was more of a trend towards putting on a show of wealth than actually having it. This impression was furthered by entertainment and lavishness. However, the fantasy could only be kept up for so long, and then those who had invested more than they could afford to lose lost their money in the stock market crash. The lack of money in the Depression which followed is a lesson in financial responsibility and planning for the future.

*Neptune in 11th house:*

You would have talent doing creative work on a computer, and you could well make money at this. You could create visual illusions, effective illustrations, and presentations of music. Your awareness is on a high, spiritual plane and you would likely find more fulfillment helping those in need in the community than being concerned about a big salary. Still, if you choose to acquire material assets, your psychic and intellectual talents would enable you to come up with inspired solutions.

## Chapter 10: Pluto

The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

*Pluto in Cancer:*

You were born in an age when the economy revolved around the family. The father went out to work and the mother stayed at home with the children. Motherhood was highly valued. Because of the number of new babies born, food production needed to be increased to feed the growing population. The larger "family" of culture and country was perceived as being in need of being defended, and part of the economy revolved around these efforts.

*Pluto in 10th house:*

You have tremendous potential for success in reaching the top of a large organization, such as a company, the military, or government. That is because you innately understand that, in order to succeed, you have to work long and hard and overcome all obstacles. You possess strong willpower, honesty, and reliability in a crisis. You would be good at taking over a company and turning it around so that it will make a profit. Always deal with honest people and build a good reputation.

## Chapter 11: The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

### *Ascendant in Virgo:*

Your prosperity comes from being of practical service to others. You may care for their health or you may provide them with accurate bookkeeping, or some other precise skill, perhaps working with your hands. You are very careful and cautious in your financial dealings, and your honesty pays off. ## Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

*Part of Fortune in Cancer:*

Your joy comes from nurturing life in all its forms. Your own birth was a great joy, a divine miracle from which you derive inspiration. You are now celebrating the miracle of motherhood every day and facilitating the creation and unfolding of life and its divine potential. What can be more prosperous than to witness the growth all around you? What can be more fulfilling than to be a part of it, helping it along and responding to its needs with care and protectiveness? The fertility of the earth and the infinity of the heavens represent infinite prosperity!

*Part of Fortune in 10th house:*

Your prosperity in life stems from your maturity and self-respect. You set goals and achieve them, and this reinforces your good self-image. In keeping with your self-respect, you seek to do that which is honest, right, and dependable. Your loyal service leads to your long-term success, fulfillment of your career goals, and preparation for your independence in retirement. Your success brings you great joy. Your life is also made fulfilling by the good example you set for others, and the fact that this leads to their following the path to success too.
